Mortgage Advisor

Description

If growing as an individual at a company that actually values your dedication is just as important to you as the size of your bank account, then you're going to fit right in as a mortgage advisor at Redbrick Mortgage Advisory.

Qualifications

Of course, being dedicated and growth-oriented are just part of what you need to excel here at one of Singapore's most successful mortgage practices. We're looking for someone who'll also:

- Be driven, take initiative and work independently.
- Love meeting people and delivering good advice
- Have experience in banking (and if you're experienced in secured or unsecured lending, or sales and customer service, that's a bonus!)
- Easily convey complex matters clearly and concisely

Responsibilities

Every day at Redbrick's going to present you with a fresh set of challenges, so you can look forward to:

- Turning inbound lead enquiries into successful loan applications
- Providing sound home loan advice
- Developing property financing solutions
- Monitoring our clients' portfolios and optimise their property finances
- Providing them with peace of mind, as you lead and manage them throughout their property journey

Job Benefits

All of this happens in a diverse and inclusive environment, with awesome office culture and flexible work arrangements. Plus, once you're part of our tribe, you'll get the chance to sharpen your business development and advisory skills through rigorous training, coaching and, most importantly, support.

The sky is the limit! So, take that first step on this journey—and send us your resume now.
