Product Compliance Specialist

Description

Are you looking to be a part of the most influential company in the blockchain industry and contribute to the crypto-currency revolution that is changing the world?

For new product efforts across Binance Global, the Product Compliance team offers regulatory assistance and recommendations. From initial development to product launch, you'll play a crucial part in the new product lifecycle in this position.

Responsibilities

- Provide end-to-end compliance control coverage for business unit product launches, new features, maintenance, and support to implement country product restrictions.
- Generate compliance plans with joint efforts from cross functions to ensure it is managed in accordance with the BU's objectives, and that best practices are embedded in the products and services.
- Work closely with Compliance SMEs and local/regional MLROs to ensure controls are in place, testing is complete and the business can launch on time and in line with regulatory requirements.
- Participate in daily and weekly meetings for BUs that need to meet regulatory and external partner commitments and support Master Service Agreement negotiations and implementation.
- Review and implement regulatory changes and provide training to the business as required.
- Analyze regulatory developments that have an impact on product offerings.

Qualifications

- 5+ plus years financial regulatory industry experience, preferably at a crypto native business, fintech, broker-dealer, investment adviser, asset manager, or bank holding company
- 5+ years in a compliance, control, or risk management role
Demonstrated experience supporting new product launches within the financial services industry
- Up to date knowledge of recent regulatory developments
Excellent communication skills, both oral and written
- Demonstrated experience working independently and prioritizing multiple projects based on regulatory risk and business needs. An interest in Web3 and understanding of current regulatory narratives.

Hiring organization

Binance

Binance is the world's leading blockchain and cryptocurrency infrastructure provider with a financial product suite that includes the largest digital asset exchange by volume. Trusted by millions worldwide, the Binance platform is dedicated to increasing the freedom of money for users, and features an unmatched portfolio of crypto products and offerings, including: trading and finance, education, data and research, social good, investment and incubation, decentralization and infrastructure solutions, and more.
