Product Manager (KYC/KYB)

Description

Binance is the global blockchain company behind the world's largest digital asset exchange by trading volume and users, serving a greater mission to accelerate cryptocurrency adoption and increase the freedom of money.

Are you looking to be a part of the most influential company in the blockchain industry and contribute to the crypto-currency revolution that is changing the world?

We are looking for an experienced Product Manager to focus on KYB/KYC products related to the safekeeping of digital assets.

You'll transform ideas into strategy and product features, following agile development practices to deliver the final product from start to finish. To succeed in this role, you should be a data driven, creative leader and problem-solver with a passion for the crypto industry.

Responsibilities

- Responsible for our KYB/KYC product architecture design
- Responsible for the integration of KYB/KYC vendors
- Responsible for the improvement of KYB/KYC process including backend and frontend
- Collect and analyze feedback from customers, stakeholders and other teams, consolidate them into requirements, features and end products
- Communicate with senior management with product plans and roadmaps
- Produce and review product requirements documents (PRD)
- Ensure products and releases are launched correctly and on schedule
- Track and push development and testing progress. Track and analyze key user metrics in order to form feedback loop to improve our products and services.

Qualifications

- Minimum 3 years of proven experience as a KYB/KYC Product Manager. Blockchain, Finance experience is a plus. Experience in global facing products preferred.
- Experience in internationally renowned Internet companies, (Knowledge of FinTech products is a great bonus)
- Good understanding of KYB/KYC
- Experience in product lifecycle management, preferably in agile framework
- Good skills in PRD. Data driven experience is a plus
- Excellent communication skills
- Problem-solving aptitude

Job Benefits

- Do something meaningful; Be a part of the future of finance technology and the no.1 company in the industry
