Senior Financial Operations Analyst

Responsibilities

- Working in a team of global payment professionals to ensure goals and tasks are achieved and completed.
- Prepare and review complex account reconciliations, financial analyses, and deliverables
- Proactively identify and resolve financial exceptions
- Ensure that client issues are addressed and resolved in a timely manner
- Coordinate resolution of complex customer issues with the Account Manager
- Ensure adequate coverage so all activities are completed to SLA
- Approve third party payments through accurate reconciliation of financial records
- Act as a point of contact for addressing any inquiries and questions related to financial operations
- Lead and complete projects and process improvements to enhance efficiency and enhance Product

Qualifications

- 5+ years in a financial operations capacity
- 3+ years in a technology company (preferably FinTech, ideally, payments)
- Advanced analytical, cross-referencing and deductive reasoning skills
- Thrives working in a fast-paced environment while maintaining composure and able to make sound decisions under pressure
- Must display a high level of professional judgment, commitment, integrity, teamwork, and customer service
- English at a very high level (all communication is done in English, verbal and written) – additional languages a plus
- Bachelor's degree in Business Administration, Finance, Accounting or Operations

Hiring organization

Rapyd

Around the world, customers want to pay in a thousand different ways. Businesses and consumers want to get paid faster. And developers want to build new products and possibilities. Rapyd makes it happen, giving you more ways than anyone to make fintech work for your business. With Rapyd, your business can accept and send payments to just about anyone—faster, cheaper and easier. And Rapyd clients see an average of 196% return on investment and spend 70% less time managing payments.
